Department of Chemical Engineering and Applied Chemistry
University of Toronto

Vol. 26, No. 18, May 8, 2009

ANNOUNCEMENTS:

Graduate Orals:

M.A.Sc. Bypass Oral Examination – E.C. Ciucurel, Tuesday, May 12, 2009, WB115, 1:00 p.m.

Research Topic: SYNTHESIS SCAFFOLDS FOR MODULAR TISSUE ENGINEERING

Committee: Chair - E.A. Edwards; Supervisor - M.V. Sefton; Other Members - M.S. Shoichet, E. Sone

Congratulations:

Professor Levente Diosady was elected a Fellow of the Canadian Institute of Food Science and Technology (CIFST) on May 7 in Montreal. Only one fellow is elected annually by the Institute, which is composed of more than 1,200 scientists and technologists in industry, government and academia. Professor Diosady was recognized for his over 30-year career, in which he has established himself as one of Canada's leading food engineers. His research has improved vegetable oil processing, edible-oil refining, micronutrient fortification and meat curing. Congratulations Professor Diosady.

Position Wanted:

A c.v. has been received from Sanjay Kumar, who has a Ph.D. from the School of Biotechnology, Jawaharlal Nehru University, New Delhi (2008). His Ph.D. work was on a project entitled "Bioprocess strategies for the production of recombinant human granulocyte-colony stimulating factor in *Escherichia coli*", under the supervision of Dr. K.J Mukherjee. He is seeking a postdoctoral research position. Interested persons can contact him directly at sanjaykumarkadam@gmail.com.

A c.v. has been received from Tariq Iqbal who has a Ph.D. from University College Cork, Ireland (2008). His research area is "Food process engineering (food packaging-modified atmosphere packaging)". He is seeking a postdoctoral/research/lecturer position. Interested persons can contact him directly at tariq.faiq@gmail.com.

Copies of both c.v.'s are available in Room 217 for anyone who is interested.
