ANNOUNCEMENTS:

Position Available:

The Department of Chemical Engineering and Applied Chemistry at the University of Toronto is seeking a Postdoctoral Research Fellow in the field of research – Cleantech – Area of Smart Sensors for Intensive Combustion Processes based on novel application of applied spectroscopy and other techniques for measurement of gas constituents, gas temperatures, and gas flows. The candidate must have a Ph.D. with a strong R&D development background in Applied Spectroscopy with experience or a strong interest in the application of spectroscopy for industrial processes. Candidates should send their qualifications to Mary Kneebone, Coordinator (mary.kneebone@ca.tenovagroup.com). More information about this position is posted on the bulletin board outside of Room 217.

Position Wanted:

Aida Biati is seeking a postdoctoral position in the field of “Environmental Science”. She will be graduating from the I.A. University, Science & Research Campus, Tehran in December 2010. Her thesis dissertation title is: An Investigation on Flocculation Process in heavy Metals Clean Up from Freshwaters and Feasibility Study for Its Application in Removal of Heavy Metals from Industrial Wastewater (Case Study: Minab River). A copy of her cv is available in Room 217 for anyone who is interested. Interested persons can also contact her directly at bayati_id@yahoo.com.

Submissions to: Arlene Smith, Room 217
